

# Y-PORT CENTER

## Yokohama Urban Smart Solution

### Establishing a knowledge hub for smart city management

The City of Yokohama, in collaboration with international research institutions, inter-city networks, and leading private firms in Yokohama, has established the Y-PORT Center to provide smart urban solutions to cities in Asia and the world. The Center actively seeks further collaboration with donor agencies, global think tanks and urban service providers.

### What Y-PORT Center offers

1. Providing best available urban solutions and practical smart urban management knowledge to cities in emerging economies.
2. Co-creating urban solutions through dialogue with private firms with cutting-edge technologies, cities, and global think tanks.
3. Enhancing communications with and gaining support from the government of Japan and donor agencies in the area of smart urban development.

## Proposed Functions of Y-PORT Center

### Formulating the market for environmental technologies through institutional development in emerging economies

- Supporting Master Plan formulation for cities in collaboration with JICA, ADB, etc.
- Building appropriate regulation and human resources in cities by leveraging Yokohama's urban development experience
- Incorporating upstream approaches into the master plan policies

### Creating smart urban solutions through co-creation among cities and private firms

- Fine-tuning business plans through arranging feasibility studies and demonstrations
- Developing comprehensive package solutions for cities
- Co-creating "Best Available Solution" proposals with diverse affiliated organizations

### Understanding emerging urban needs and providing information for technical development and assistance

- Providing comprehensive information on the needs of cities in emerging economies to private firms
- Recognizing local needs and conducting joint field studies
- Creating business matching opportunities through Y-PORT Workshops, local seminars, etc.

### Introducing technology of private firms in Yokohama to cities in emerging economies

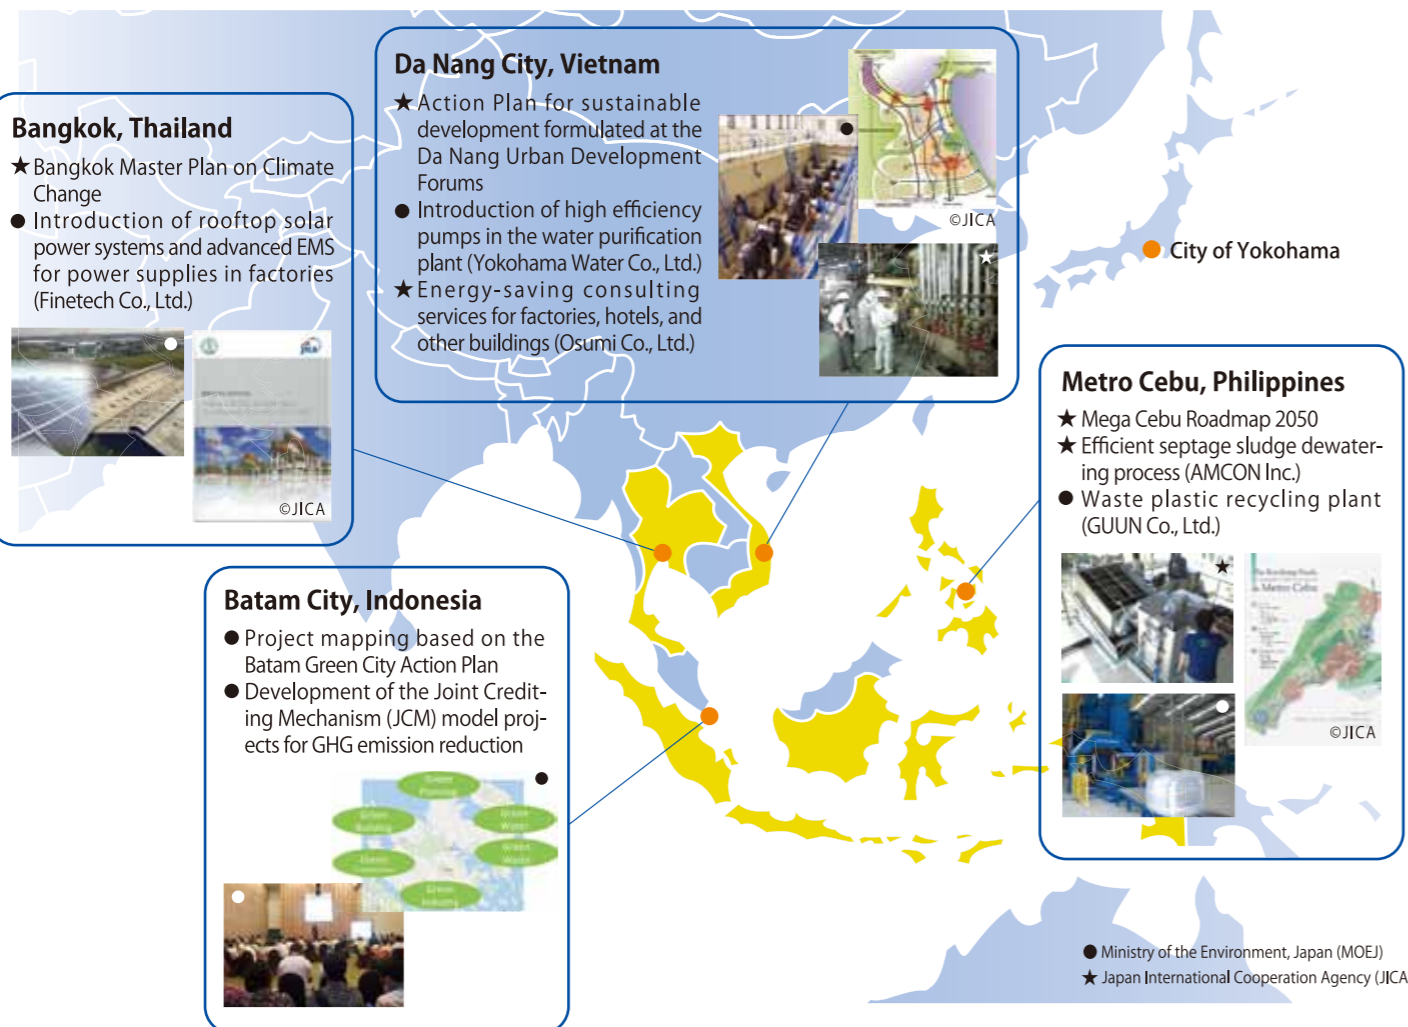

- Promoting technologies possessed by private firms in Yokohama to cities
- Creating business matching opportunities through Y-PORT Workshops, local seminars, etc.
- Collaborating with private firms to dispatch smart infrastructure solutions

### Establishing an international network through enhancing and capitalizing on Yokohama's global brand

- Sharing with the international community through gatherings such as the Asia Smart Cities Conference
- Publicizing information proactively to raise Yokohama's name recognition and strengthen its widely praised brand value
- Encouraging ongoing inter-city cooperation through the Asia Smart City Alliance

## City to City Collaboration
