Bus Rapid Transit (BRT)

FRENCH Prime Minister Jean-Marc Ayrault praised Cebu officials for choosing TransCebu or the Bus Rapid Transit (BRT) as the future major means of transport, which is partly financed by his country.

TRANS-CEBU will cost P9.076 billion (US\$212 million)

The greatest challenge of Cebu City is the demand for decent housing

At least **40 urban poor families** have availed of the socialized housing project undertaken by the Cebu City Government in Lorega-San Miguel. The city government and its partner organizations, **Gawad Kalinga Community Development Foundation** Incorporated and the Action for Nurturing Children and Environment or ANCE, turned over the housing units to the beneficiaries .
